OUR STORY

Established in homage to elegant exile, Harper's is a tribute to the traveling soul, a prime destination for the world-weary voyager.

Where in the World is Madame Harper? In deep immersion amidst the wider world, or here at Harper's where she takes her repose. A first-rate explorer of Earth's special somewheres, her life's travels inform our cuisine - her hard-won discoveries, now yours to savor.

It's a menu more like a passport in the comfort of your home away from home. Adventure soon awaits those who dare to dine boldly.
